Michael Storcks= address protected by Daniels Law

“To clear up the conversation from workshop downsizing was discussed in 2023; getting the quint was to downsize the fleet. Hear that or not or talk over everyone. That's fine, that was the discussion. For clarification, Commissioner Sheldrick during Chief Spirko's term in office, was well on board. Go see those guys. Secondly- conversation about selling 2-29 that is going to be done tonight? Board: We did it. Michele: resolution will be held after meeting with buyer. I am here for myself as a taxpayer. When I was a commissioner, I tried my best to do what I thought was right. You guys are pushing back on policies and ins companies and you don't care that insurance rates may get raised because you don't want to pass a policy or change the policy to make it better to protect yourselves and the town and then you want to save trucks that don't move; chiefs cars that are now 7 years old; put that off for another year because you want to save firetrucks that don't move out of the firehouse. Don't forget, I did the mileage reports. The trucks don't move that much, you're saving the trucks as a spare. For what? This isn't 1898, this isn't 1990. Every call is a general alarm. If you don't think I'm watching the call stats and see what trucks are moving- you're mistaken. I am a tax payer. You want to save these trucks- for what? You need gear. You got lucky with the radios. Just bought a bunch of packs- to save a truck that doesn't move. What if? You are not responding to calls by yourselves anymore and when you do the trucks aren't full. There are plenty of utility apparatus in this town to use. Again- I guess I have to keep an eye on you guys. Seems like you guys are going backwards. A few of you are. I just wanted to put that out there.”

Closed to the public at 8:32 pm
